DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Paytas et al (US 6,035,561).

Paytas et al disclose a belt drive comprising: a drive set comprising at least two toothed gearwheels rotatable on axially parallel radially offset axes (see Fig 2), the gearwheels being radially spaced at a distance from each other (see Fig 2), each of the gearwheels having respective similarly shaped toothing (see Fig 2); a belt (28) which extends around the gearwheels and the belt having internal toothing shaped for meshing with the toothing of the gearwheels (see Fig 2); an engagement and disengagement device (34, 36) positioned to act on the belt for selectively causing meshing of the toothing of the belt with the toothing on a first one of the gearwheels and for demeshing the belt from the toothing on the first gearwheel, the engagement and disengagement device being connected with the belt for lifting the belt radially from the first gearwheel from a meshed position into a demeshed position or for moving the

toothed-belt radially so that the toothing thereon meshes with the toothing of the first gearwheel with the belt moving from the demeshed position into the meshed position (col. 3 lines 4-14).

Allowable Subject Matter

4. Claims 2-11 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
